The prior art of record fails to disclose or suggest the recited method of forming a multilayer article comprising thermoforming a laminate comprising a polyester layer and a compatible resin layer, placing said thermoformed laminate in a first mold half and placing a preheated reinforced resin material in a second mold half, followed by joining the two mold halves and compressing the preheated reinforced substrate material onto the thermoformed laminate. VISCONTI ET AL (US 6,508,967) fails to disclose the recited thermoforming of a laminate film step; RD 440055 fails to disclose placement of the preheated resin material on a separate mold half.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
